Experience

Junior Software Engineer Intern

TeMetaTech**,** Trivandrum (July 2024 – October 2024)

- Collaborated with senior engineers to create efficient web application solutions using **HTML, CSS,** and **Reactjs.**
- Developed and implemented the Job Applying Page, enhancing user experience and functionality.
- Contributed to integrating dynamic functionalities for improved usability.
- Utilized Git for version control, ensuring smooth collaboration in a team environment.
- Worked in a fast-paced setting, enhancing problem-solving skills and adaptability.

Projects

Used Car Price Prediction System

- Developed a Used Car Price Prediction System using **Multiple Linear Regression**.
- Implemented the model with **Python** and **scikit-learn** to estimate car prices accurately.
- Built a **Flask**-based web application for user interaction.
- Designed the frontend using **HTML** and **CSS** for a user-friendly interface.

Detecting Fraud Apps Using Sentiment Analysis

- Developed an **Android app** to detect fraudulent applications by analysing **reviews and ratings**.
- Enabled simultaneous processing of multiple apps for efficient fraud detection.
- Assisted admins in identifying and marking **suspicious apps** to enhance user safety.
- Improved **trust in app markets** by preventing fraudulent activities.

Alumni Job Management System

- Developed the **Alumni Job Management (AJM) platform** using **Flutter, Dart, and Firebase** to facilitate job postings, fundraising, and alumni-student interactions.
- Enabled **job postings, fundraising, and sponsorships** to support career growth and networking.
- Provided administrators with tools to **manage applications and events**, ensuring smooth operations.
- Fostered **community engagement** through a centralized platform.

Education

- **MCA-**(2022-24) | Federal Institute of Science and Technology(FISAT), **KTU University**
- **BCA-** (2018-21) | Govt College Thalassery, **Kannur University**

Technical Skills

PYTHON | HTML | MYSQL | C | JAVASCRIPT | LINUX | REACT | CSS

Certifications

- DATABSE MANAGEMENT SYSTEM
- CLOUD COMPUTING (NPTEL)

Soft Skills

Team Player | Leadership | Adaptability | Eager Learner | Time Management | Communication
